## Visit the Manufacturing Facilities in Shiner, Texas

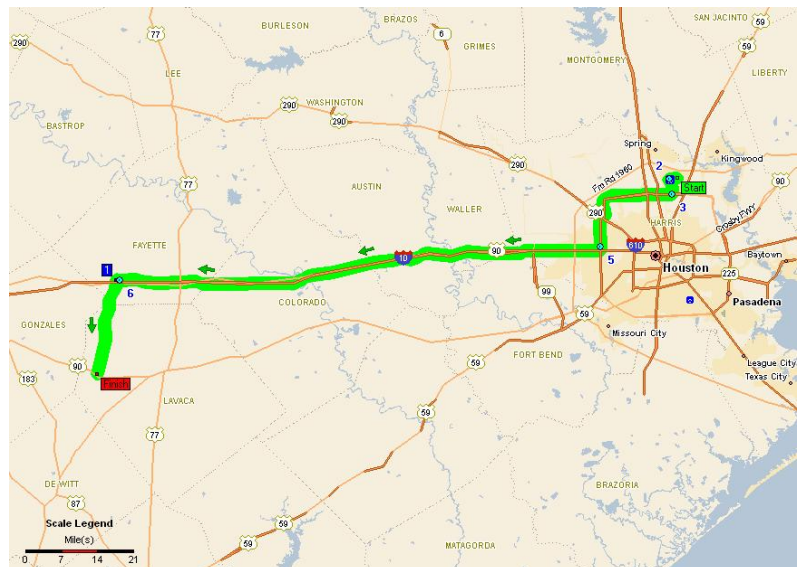

We manufacture our equipment primarily at the KASPAR Companies in Shiner, Texas. The Drum Recycler equipment and Wastewater treatment systems are manufactured on the shop floor of KASELCO, one of the KASPAR companies located under 500,000 SF of roof in Shiner, Texas. The KASPAR companies combined are the largest employer in six counties, employing about 600 people

Manufacturing is the business on this property. A few different products are made - they are all "low tech" steel, but some use high tech electronics in their controls. The KASPAR companies manufacture some of their own

production equipment such as jigs and fixtures and machines. KASPAR ELECTROPLATING uses an electrocoagulation wastewater treatment system manufactured by KASELCO.

If you fly in, the closest airport is Austin Bergstrom (AFB). You could fly in to San Antonio, or one of the Houston Airports. If you prefer to rent a car, call us for a more detailed map and driving instructions before you leave. If you prefer for us to pick you up please give us advance notice - we will pick you up and take you back to whichever airport you fly into. Typically the intentions of a visit to the facilities can be accomplished in one day. If you choose to stay the night in Shiner please give us notice so we can schedule a room for you in the company guest house, if one is available

*Shiner, Texas, 2.7 hrs west of Houston  
Intercontinental. 1.3 hrs SE of Austin,  
Bergstrom (AFB)*
